

Cat's Claw Combination NPN 80046419

100 Capsules, Herbal combination, Stock No. 175

From deep in the rain forests of Peru comes a truly remarkable herb known as Cat's Claw, or Uña de Gato in Spanish. It has been used by the Peruvian natives for centuries in a variety of applications. Cat's Claw, according to many herbalists, may be one of the Amazon's most impressive traditional healing plants.

While Cat's Claw is the key ingredient in this formula, NSP has combined it with the traditional Asian tonic herb astragalus and the Native American herb echinacea, to create an all-herbal immune supplement from classic traditional medicine ingredients.

Did you know?

Dr. Brent Davis, who had become fascinated with Cat's Claw long before it emerged as a natural health supplement refers to *Uncaria tomentosa* as "the opener of the way."

In 1988, an international congress was held in Lima, Peru to share information on traditional Peruvian therapies. Several physicians lauded Cat's Claw for its value in traditional herbal medicine and its many traditional uses.

—Cat's Claw, *The Miracle Herb from the Rain Forest of Peru* by Rita Elkins

NSP Advantage

100 capsules. Herbal Combination.

Ingredients: Medicinal Ingredients: Each capsule contains *Uncaria tomentosa* (cat's claw) inner bark 300 mg; *Astragalus membranaceus* (astragalus) root 121 mg and *Echinacea purpurea* (echinacea) root 25 mg. Non-medicinal Ingredients: Gelatin, cellulose and magnesium stearate.
