BWL-BLD Formula offers an array of vitamins, minerals, enzymes and herbs and fibre to help maintain overall good health.

Did you know?

In traditional systems of herbal medicine the foundation of good health requires maintaining a properly functioning intestinal system.

The lower bowel, or colon, is considered the toxic waste site for the body. Thus, regular bowel movements is an indication that the system is working properly. Any change in bowel habits can be a sign of trouble somewhere along the intestinal tract and should be brought to the attention of your healthcare practitioner.
