

# Silver Shield Gel NPN 80036393

85 mL, Natural Antimicrobial Gel, Stock No. 4950-1

**S**ilver Shield Gel is a topical antimicrobial solution capable of reducing the length and severity of bacterial skin infection. Silver particles are recognized as effective, virtually nontoxic, natural disinfecting antimicrobial agents.

Use Silver Shield Gel to help prevent minor infection of minor burns and cuts and to help treat minor skin infections.

## *Did you know?*

Greek and Roman societies stored liquids in silver-lined containers to keep them fresh. American settlers traveling west would put a silver dollar in milk to delay its spoiling.

Recently, silver has been reintroduced as a natural alternative to treat bacterial infections at early stages of illness.

## *NSP Advantage*

85 mL. Natural Antibiotic.

Silver Shield Gel is a clear antibacterial gel product. Silver Shield Gel is manufactured with a patented process using Aqua Sol Technology and utilizes only the finest particle-sized colloids to ensure maximum bioavailability and efficiency.

Silver Shield Gel is non-toxic, safe and effective, and has no risk of causing heavy metal contamination.

This gel provides 24 ppm of bioavailable silver.

*Ingredients:* Medicinal Ingredients: Silver (colloidal silver) 24 mcg/mL. Non-medicinal Ingredients: purified water, triethanolamine, acrylates/C10-30 alkyl acrylate crosspolymer.

*Recommendation (adults):* Apply 1-5 ml 1-2 times per day. Apply to skin directly as needed. For occasional use only. Consult a health care practitioner for use beyond 7 days.

**Risk information:** For adults only. Keep out of reach of children. For external use only. Do not ingest. Avoid contact with the eyes. Discontinue use and consult a health care practitioner if irritation and redness develops or if symptoms persist and/or worsen after 7 days. Consult a health care practitioner prior to use if you have a dietary deficiency of vitamin E or selenium and/or genetic deficiency in the metabolism of vitamin E or selenium. Do not use if you are pregnant or breastfeeding or if you are allergic/sensitive to silver. Hypersensitivity, such as allergy, has been known to occur; in which case, discontinue use. Argyria, a medically benign but permanent bluish-grey discoloration of skin, has been known to occur, in which case consult a health care practitioner.
